Board Resolution No.12(Table Agenda) /dated 26.06.2018

ORDER:

The Executive Engineer, Tamil Nadu Slum Clearance Board, Coimbatore has requested to supply drinking water of 1,44,000 Litres per day to 1440 tenements in three locations namely Kovaipudur (672 Nos), MGR nagar (512 Nos), Thiru. Vi. Ka. Nagar (256 Nos) situated in Madukkarai Town Panchayat Limit in Coimbatore District at a approved tariff vide BP Ms. No.88, 08.11.2017 for Urban Local bodies, i.e., Rs.9.45/KL. Since the people residing at three places in Madukkarai Town Panchayat are shifted from the encroached areas in water bodies and objectionable places in Coimbatore Corporation.

In this connection the Chief Engineer, Coimbatore has submitted feasibility report.

The requested quantity of water to the tenements is 1,44,000 litres per day can be drawn from the nearest Madukkarai and Arivoli Nagar Sump as per B.P M.S. No. 80, Dated 15.09.2010.

It is technically feasible to provide 1,44,000 litres of drinking water to the 1440 tenements at Kovaipudur (672 nos), MGR Nagar (512 nos) and Thiru. Vi. Ka. Nagar (256 nos) in Madukkarai Town Panachayat in Coimbatore as follows,

The requirement of Kovaipudur tenements of 672 Nos is 67,200 litres per day from the Sump at Arivoli nagar sump.

The requirements of MGR Nagar (512 Nos) and Thiru.Vi.Ka Nagar (256 Nos) tenements is 51,200 litres per day and 25,600 litres per day respectively from the sump at Madukkarai.

The required quantity of 0.144 MLD is proposed to be drawn from the balance available industrial demand of 0.8615 MLD [(Total Industrial demand (13.4180 MLD) - Already utilized demand (12.5565 MLD)]. Balance quantity after allotting to 1440 tenements of TNSCB is 0.7175 MLD.

The Principal Secretary, M.A & W.S Department instructed to take immediate action to identify beneficiaries for utilizing the above unutilized quantity in order to reduce the O & M gap expenditure in each schemes.

The Chief Engineer, Coimbatore has also certified that the tail end habitations will not get affected due to provision of these private connections.

Based on the request of the Executive Engineer, TNSCB, Coimbatore and as recommended by the Chief Engineer Coimbatore, the proposal for providing water supply connection of 1,44,000 litres of water per day to the 1440 tenements at Kovaipudur (672 nos), MGR Nagar (512 nos) and Thiru. Vi. Ka. Nagar (256 nos) in Madukkarai Town Panachayat under CWSS to CLPRA with Pillur Reservoir as Source in Coimbatore District at the tariff rate of Urban Local Bodies vide G.O. Ms No. 39, Dt. 17.04.2018 with an annual increase of 5 % i.e., 9.45/KL is placed before the Board for according approval and to permit the Chief Engineer to take up this work as a deposit work with the following conditions.

1. It should be ensured that no extra quantity of water over and above the allotted quantity is supplied/ drawn from the CWSS.
2. The beneficiary should utilize the entire allotted quantity of water. If the usage of water is less than the allotted quantity for a continuous period of 6 months then the allotment will be reduced to average of used quantity. Further, the beneficiary cannot claim the entire quantity originally allotted in future. If TWAD Board has failed to supply the allotted quantity due to various reasons, then DCB will be raised for the actual supplied quantity.

3. If the beneficiary draws water more than the allotted quantity, the tariff will be four times the existing water tariff for extra drawl quantity.
4. Digital Water meter with telemetry facility should be fixed. The demand should be raised as per water meter reading. If water meter is not working, it should be got repaired by the consumer immediately or else the water supply connection will be disconnected immediately.
5. As and when the water charges are revised, the consumer should pay revised water charges.
6. The field officers should get necessary concurrence from the beneficiary to deposit the caution deposit, advance water charges and the cost towards interconnection works. The beneficiary should remit the advance water charges, caution deposit and the cost towards inter connection works within three months of approval as per TWAD Board Rules in force. The interconnection work will be undertaken only after deposit of the full amount to Board.
7. If the beneficiary fails to pay the advance water charges, caution deposit and the cost towards inter connection works within 3 months, a grace period of 30 days will permitted to pay the said amount to TWAD Board, failing which the sanction of allotment order stands cancelled. Further, the beneficiary cannot claim/apply for water supply connection to the TWAD Board.
8. In any case, if the water supply connection could not be implemented for the reasons beyond the control of TWAD Board, TWAD Board will not be responsible for any loss to the beneficiary/consumer.
9. If there is any increase in the infrastructure cost, the same has to be borne by the beneficiary.
10. The field Engineers may be instructed to ensure proper supply of water to the general public while giving this water supply connection to the beneficiary.
11. Necessary MOU should be entered between the beneficiary and the Executive Engineer concerned.

The Board in its Resolution No.12(Table Agenda) / dated 26.06.2018 has resolved as follows.

Executive engineer, Tamil Nadu Slum Clearance Board, Coimbatore has requested to supply 0.144 MLD of Drinking water at the tariff rate of urban local bodies to the 1440 tenements in Madukkarai Town Panachayat who were shifted from the encroached areas and objectionable places of Coimbatore Corporation.

4/5

The balance Industrial allocation quantity available is **0.8615 MLD** out of the total Industrial allocation quantity of **13.418 MLD** in CWSS to CLPRA with Pillur reservoir as source in Coimbatore District. The **Chief Engineer, Coimbatore** has also recommended this proposal and the expected revenue would be around **Rs.1.97 Lakh per year** due to provision of this connection.

Hence the Board after careful consideration, **RESOLVED to accord approval** of the proposal of the Chief Engineer, Coimbatore for providing water supply connection of 144 KL of water per day to the 1440 tenements at Kovaipudur (672 nos), MGR Nagar (512 nos) and Thiru. Vi. Ka. Nagar (256 nos) in Madukkarai Town Panachayat from the available balance industrial demand quantity of 0.8615 MLD in CWSS to CLPRA with Pillur Reservoir as Source in Coimbatore District @ the water tariff of Rs.9.45/KL, (Rates for Urban Local Bodies vide G.O Ms No. 39, Dt. 7.4.2018 with annual increase of 5%), subject to the stipulated conditions and to permit the Chief Engineer, Coimbatore, to take up this work as a deposit work.

Accordingly the Board approved the proposal of the Chief Engineer, Coimbatore for providing water water supply connection of 144 KL of water per day to the 1440 tenements at Kovaipudur (672 nos), MGR Nagar (512 nos) and Thiru. Vi. Ka. Nagar (256 nos) in Madukkarai Town Panachayat from the available balance industrial demand quantity of 0.8615 MLD in CWSS to CLPRA with Pillur Reservoir as Source in Coimbatore District @ the water tariff of Rs.9.45/KL, (Rates for Urban Local Bodies vide G.O Ms No. 39, Dt. 7.4.2018) with annual increase of 5%, subject to the stipulated conditions and to permit the Chief Engineer, Coimbatore, to take up this work as a deposit work.
