B.P.Ms. No.82

Dated:31.07.2018

Read :

Board Resolution No. 6(Table Agenda)/dated:26.06.2018

ORDER:

The Chairman M/s.Arul Mariamman Bakers, R.Ponnapuram, Pollachi, Coimbatore Dist has requested 10,000 Litres of water per day to their Bakers.

In this connection the Chief Engineer, Coimbatore has submitted feasibility report.

M/s.Arul Mariamman Bakers , R,Ponnapuram, Pollachi is located nearer to Thalakkurai Booster station under CWSS to Zamin Uthukuli T.P and 63 rural habitations in Pollachi South and Pollachi North Unions Coimbatore District.

The required quantity of 10,000 litres per day can be drawn from the nearest Thalakkurai Sump as per B.P M.S. No: 80, Dated 15.09.10.

The firm has agreed to remit the water tariff at Rs.150.00/KL and to pay the installation cost, 6 months advance water charges and 6 months caution deposit vide their consent letter Dated 07.06.18.

The Principal Secretary, M.A & W.S Department instructed to take immediate action to identify beneficiaries for utilizing the above unutilized quantity in order to reduce the O & M gap expenditure in each schemes.

The Chief Engineer, Coimbatore has also certified that the tail end habitations will not get affected due to provision of these private connections.

Based on the request of the M/s.Arul Mariamman Bakers , Pollachi & consent letter submitted and as recommended by the Chief Engineer Coimbatore, the proposal for providing water supply connection of 10,000 litres of water per day to the M/s.Arul Mariamman Bakers, Pollachi from CWSS to Zamin Uthukuli T.P and 63 rural habitations in Pollachi South, and Pollachi North Unions Coimbatore District at a water tariff of Rs.150.00/KL was placed before the Board for according approval and to permit the Chief Engineer to take up this work as a deposit work with the following conditions.

1. It should be ensured that no extra quantity of water over and above the allotted quantity is supplied/ drawn from the CWSS.
2. The beneficiary should utilize the entire allotted quantity of water. If the usage of water is less than the allotted quantity for a continuous period of 6 months then the allotment will be reduced to average of used quantity. Further, the beneficiary cannot claim the entire quantity originally allotted in future. If TWAD Board has failed to supply the allotted quantity due to various reasons, then DCB will be raised for the actual supplied quantity.
3. If the beneficiary draws water more than the allotted quantity, the tariff will be four times the existing water tariff for extra drawl quantity.
4. Digital Water meter with telemetry facility should be fixed. The demand should be raised as per water meter reading. If water meter is not working, it should be got repaired by the consumer immediately or else the water supply connection will be disconnected immediately.
5. As and when the water charges are revised, the consumer should pay revised water charges.
6. The field officers should get necessary concurrence from the beneficiary to deposit the caution deposit, advance water charges and the cost towards interconnection works. The beneficiary should remit the advance water charges, caution deposit and the cost towards inter connection works within three months of approval as

per TWAD Board Rules in force. The interconnection work will be undertaken only after deposit of the full amount to Board.

7. If the beneficiary fails to pay the advance water charges, caution deposit and the cost towards inter connection works within 3 months, a grace period of 30 days will be permitted to pay the said amount to TWAD Board, failing which the sanction of allotment order stands cancelled. Further, the beneficiary cannot claim/apply for water supply connection to the TWAD Board.
8. In any case, if the water supply connection could not be implemented for the reasons beyond the control of TWAD Board, TWAD Board will not be responsible for any loss to the beneficiary/consumer.
9. If there is any increase in the infrastructure cost, the same has to be borne by the beneficiary.
10. The field Engineers may be instructed to ensure proper supply of water to the general public while giving this water supply connection to the beneficiary.
11. Necessary MOU should be entered between the beneficiary and the Executive Engineer concerned.

The Board in its Resolution No.6(Table Agenda)/dated 26.06.2018 has resolved as follows.

The balance Industrial allocation quantity available is **0.0272 MLD** out of the total Industrial allocation quantity of **0.0677 MLD** in CWSS to Zamin Uthukuli TP and 63 rural habitations in Pollachi South and Pollachi North Unions Coimbatore District. The **Chief Engineer, Coimbatore** has also recommended this proposal and the expected revenue would be around **Rs. 4.90 Lakh per year** due to provision of this connection.

Hence the Board after careful consideration, **RESOLVED to accord approval for the proposal of** the Chief Engineer, Coimbatore for providing new water supply connection to supply 10,000 litres of water per day to M/s. Arul Mariamman Bakers, R.Ponnapuram, Pollachi, Coimbatore District from the available balance Industrial quantity of 0.0272 MLD in CWSS to Zamin Uthukuli T.P and 63 rural habitations in Pollachi South and Pollachi North Unions Coimbatore District, @
