**B.P. Ms. No.98**

**Dated: 01.11.2010**

**Board's Resolution No.2.4 dated: 08.09.2010.**

« « « » »

**ORDER :**

TWAD Board has taken over the maintenance of Combined Water Supply Schemes covering more than one Local Body as per the directions of the Government of Tamil Nadu in G.O.(D)No.454/MA&WS, dated 22.08.1995 and at present over 500 CWSS are being maintained by TWAD Board.

In some of the major schemes maintained by TWAD Board, allocation has been made for a portion of water supply for the Industrial / Commercial demands. So far, TWAD Board has given 422 Water Supply connections to Industrial / Commercial Organizations and other non-domestic beneficiary units, both Government as well as Private, from the Combined Water Supply Schemes from the said Industrial allocation or from the surplus quantity of water available without affecting the domestic supply of the beneficiaries.

The breakup for 422 connections are listed below:

1	Government Organizations/Public Sector Undertakings	<b>126</b>
2	Private Industries / Commercial Organizations	<b>159</b>
3	Private Hospitals	<b>14</b>
4	Private Institutions	<b>103</b>
5	Orphanages	<b>9</b>
6	Religious/Spiritual Institutions	<b>11</b>
	<b>Total</b>	<b>422</b>

The above details were placed before the Board in its meeting held on 08.09.2010.

The Board after careful consideration, took note of the fact that out of 422 Water Supply connections effected in the past to Industrial / Commercial Organizations, Hospitals, Educational Institutions and Orphanages from the Combined Water Supply Schemes 409 connections were approved by the Chairman and Managing Director/ Managing Director, Chief Engineers, Superintending Engineers and the Executive Engineers of TWAD Board in excess of their authority.

The Board in its Resolution No.2.4 dated 08.09.2010 has resolved as follows:

In future no water supply connections from the existing CWSS should be given to the Industrial Commercial Organizations, Institutions, Hospitals, Orphanages, etc. without Board's approval.

The Board also deliberated in details and concluded that the tariff of Rs.15/- per kilolitre, presently adopted for Private Industries, Commercial organizations/ Institutions which had borne the proportionate cost of the original scheme is very low. Hence the Board after detailed discussion resolved to recommend to the Government for enhancing the tariff rate for the above beneficiaries from Rs.15/KL to Rs.30/KL in future.

The Board also resolved to request the Government to delegate the power of fixing the tariff rate for beneficiaries other than the Rural and Urban Local Bodies to the Board itself on the same lines as the delegation given to the CMWSS Board.

**Accordingly**, the Board directs that in future, water supply connections from the existing CWSS to Private Industrial/ Commercial Organizations, Institutions, Hospitals, Orphanages, etc. should only be given with Board's approval.

**Further** the Board is to recommend to the Government for enhancing the tariff adopted for Private Industries, Commercial Institutions who were borne the proportionate cost of the original scheme from Rs.15/KL to Rs.30/KL in future.

Also the Board is to request the Government to delegate the power of fixing the tariff rate for beneficiaries other than the Rural and Urban Local Bodies to the Board itself on the same lines as the delegation given to the CMWSS Board.

(By order of the Board)
